

Overview

- Jil Sander leads the minimalist fashion and influences the whole fashion industry. Its Resort 2021 collection balances between utility and minimalism and enhances utility without compromising minimalism. In this collection, we can see new elements mix with minimalist style to enrich the brand's culture.

Main Colors in the New Season

- Every season Jil Sander adds suitable main tones while continuing its cold tones. In Resort 2021 collection, designers use Cadmium Yellow and Blue Shadow as main tones and show newness via accessories and lining.

Sculptural Silhouettes

- Simple smooth ready-to-wear lines fuse with muted neutrals in low saturation. Powerful proportions, reasonable fabrics, masculine cutting and sculptural shape co-create soft and elevated items. Designers favor the minimalist and crisp outline to display the neat and valiant power of females.

Sheeny Satin
