

## Key Color-- Navy Blazer

- In S/S 2021, color is not restricted to season any more. Dim street light illumines lonely pedestrians. Navy Blazer in the gloom seems to tell the story of city. Deep tone gives a more melancholy hue.

## Application -- Navy Blazer

- Navy Blazer goes beyond seasons. Restrained and calm, this urban color is ideal for business items such as loose suits and portable trench coats.

## Color Proportion -- A Main Color

- Modern city architectures infuse vibrancy to early spring. Navy Blazer is in a large scale, accentuated with highly saturated Mykonos Blue and Alabaster Gleam to complete functional and comfortable business menswear.

## Color Proportion -- A Complementary Color

- Sunbathed effect renews the summer tones to complete a muted neutral palette. Gentle Canton teams with Prairie Sand and Plum Purple, calm yet intriguing. And Navy Blazer reveals a pleasant afternoon vibe.

## Key Item -- Color-blocked Knitwear

- Classic designs such as geometric color blocks and round neck are applied to the simple knitwear. Comfortable silhouette and casual mixed style create a relaxing space for the body.
